

IPS Empress CAD Multi...the Ultimate Blend

Page 1

Figures 1 & 2. These ceramic onlays were completed in my office 19 years ago on my father. This illustrates the longevity and durability of bonded restorations. These would probably last another 19 years. Since these were some of my first bonded ceramics, I recently elevated them to reflect my current standards of highly functional and aesthetic ceramics.

Figures 3 & 4. Preparations following ceramic removal. Digital imaging preparation with Contrast Spray.
